Federal Communications Commission  
Office of the Secretary

**Re: Request for Special Temporary Authority  
K207DB, Aberdeen, Washington (FIN: 92410)**

Dear Ms. Dortch:

On behalf of Educational Media Foundation ("EMF"), the licensee of noncommercial educational FM translator station K207DB, Aberdeen, Washington and pursuant to Sections 74.1263, and 73.1635 of the Commission's rules, this letter is to notify the Commission and request Special Temporary Authority ("STA") to allow EMF to operate K207DB with parameters at variance from those authorized in its license.

EMF's engineers recently discovered that the height of the K207DB antenna varies from the height authorized in the station's license. The station antenna is authorized at 30 meters above ground; however, the antenna is actually mounted at 34.6 meters above ground. The station's effective radiated power (ERP) has been reduced to ensure the station contours do not extend beyond the authorized coverage area. K207DB is operating at approximately 85% of its authorized ERP and does not produce radiofrequency fields in excess of FCC guidelines. EMF is making the necessary arrangements to move the antenna to the authorized height. Accordingly, EMF respectfully requests Special Temporary Authority to allow K207DB to operate at reduced power with its antenna height as built, pending relocation of the antenna to the authorized height.

Enclosed is an Anti-Drug Abuse Act Certification executed on behalf of the licensee. Because EMF is a noncommercial educational licensee, no filing fee is required.
